~~History of Psychology | A Timeline | AllPsych~~

History of psychology is a small but dynamic area of research. Contributions are made to it not just by psychologists but also by professional historians, including historians of science and historians of medicine. Isolated contributions have also been made by scholars from disciplines as diverse as philosophy, sociology, anthropology and biology.

~~Looking back: Why the history of psychology is going ...~~

After World War II, American psychology, particularly clinical psychology, grew into a substantial field in its own right, partly in response to the needs of returning veterans. The growth of psychology as a science was stimulated further by the launching of Sputnik in 1957 and the opening of the Russian-American space race to the Moon. As part of this race, the U.S. government fueled the growth of science.

~~Brief History of Psychology — Pennsylvania State University~~

The earliest psychologists that we know about are the Greek philosophers Plato (428-347 BC) and Aristotle (384-322 BC). These philosophers (see Figure 1.3) asked many of the same questions that today's psychologists ask; for instance, they questioned the distinction between nature and nurture and the existence of free will.
