North Star Engine

The Northstar engine was a family of high-performance 90° V engines produced by General Motors between 1993 and 2011. Regarded as GM's most technically complex engine, the original double overhead cam, four valve per cylinder, aluminum block/aluminum head V8 design was developed by Oldsmobile R&D, [citation needed] but is most associated with Cadillac's Northstar series.

Northstar engine series - Wikipedia

The Northstar engine series was a group of high performance V engines produced by General Motors, an American multinational corporation headquartered in Detroit that focuses on the manufacturing, marketing, and distribution of vehicles and vehicle parts, between 1993 and 2011. Originally considered GM's most complex engine, the double overhead cam and the four valve per cylinder aluminum block engine was most commonly associated with the Northstar series in the Cadillac.

The CAR WIZARD names Cadillac's Northstar Engine the ...

The Northstar was a sophisticated, European-style powerplant designed for 'premium buyers,' engineered like a Swiss watch. If you treat it like a BMW or Audi engine instead of like an old iron-block truck lump, the Northstar should prove as sweet, smooth and powerful a partner ten years from now as it was 20 years ago.

Cadillac Northstar Engine Problems | It Still Runs

Cadillac's DOHC, four valves per cylinder Northstar debuted in 1992, its most technologically advanced engine ever. Although Oldsmobile, Pontiac, and Buick have borrowed the Northstar architecture for their V8 (and even V6) engines, it was not until the 2004 Pontiac Bonneville that a non-Cadillac used the Northstar name.

Cadillac V8 engine - Wikipedia

Northstar Engines. GM released the 4.6 Cadillac Northstar Engine in the 1993 Cadillac Allante. Since then just about every Cadillac vehicle has had used them as their power plant. As of now the Northstar has been all but phased out except for the DTS. The Northstar engines since the beginning have had several inherent design flaws.

Remanufactured Cadillac 4.6 Northstar Engines

Northstar is a powerful V8 engine that was built for the Cadillac brand of General Motors cars. The large 4.6L displacement is one that is welcomed in many of the GM vehicles. Names like the Seville, Bonneville and DeVille are all synonymous with Northstar engines. These engines are in demand because they reach well over 300 horsepower.
