Welcome to my page of solutions to "Introduction to Algorithms" by Cormen, Leiserson, Rivest, and Stein. It was typeset using the LaTeX language, with most diagrams done using Tikz. It is nearly complete (and over 500 pages total!!), there were a few problems that proved some combination of more difficult and less interesting on the initial pass, so they are not yet completed.

An edition and a printing are different things. There are multiple printings of the third edition. You have the third edition if the cover looks like the image on the left side of this page. To determine which printing of the third edition you have, look at page iv, which is the copyright page just before the Table of Contents. There will be either one line or two lines containing a sequence of numbers counting down.
