## How to Import Shapefiles into Microsoft Access

Another possible way of  
importing shapefiles is  
via the raster library and  
the shapefile function:

```
library(raster) shp <- sh  
apefile("path/to/your/fil  
e.shp")
```

Note how the

MicroStation allows you to open .shp file format directly in MicroStation or attach it in a DGN file but MicroStation is a design product, NO GIS software, so it will only import geometry, not import database attributes, labels, etc.

Steps to Resolve. Open MicroStation; In the Open file dialog look under Files of type:
