Organic Chemistry Reaction Summary Sheet. A major part of the DAT organic chemistry section is knowing your reactions. I have constructed the following reaction sheet to expose you to every reaction that could possibly show up on the DAT. You do not need to memorize every single reaction to score well on the organic chemistry section. However, you should be familiar with trends such as nucleophilic addition to an electrophile, electrophilic aromatic substitution, substitution, and ...

organized my crude Name Reaction handouts so well that others encouraged the conversion into a book. At Colby College, Frank Favaloro did the same thing, making "study sheets" and adding to the list of Name Reactions. He graduated in 1996 and I started reformatting and expanding. With encouragement from Darla Henderson, this became a project.
