The current study moves beyond customer?perceived value and corporate image and demonstrates that switching costs are important factors in influencing a customer's decision to stay with a service provider. This work finds support for a contingency model involving customer?perceived value, corporate image, and switching costs.

~~Service quality, perceived value, corporate image, and ...~~

Service quality, corporate image, and perceived value were considered as independent variables and customer loyalty as dependent variable. Factor analysis was used for data purification before variables were entered into the regression model. Due to the factor loadings ranging from 0.70 – 0.84 (see appendix), all the items were retained.

Perceived quality is intangible.

Perceived quality cannot be measured on quantitative grounds, preferably because judgements about what is important to the customers varies widely across different personalities, needs and preferences. If it's a product, the customers consider the following seven features for evaluation: performance, features, conformity with specifications, reliability, durability, serviceability, fit and finish.
