Despite this, the literature overviewed indicates that the majority of social work practice conducted in mental health settings reflects an uncritical embrace of the medical model of psychiatric...

(PDF) Towards Critical Social Work Practice in Mental Health

The existing social work practice in the mental health field creates its boundaries within medical model and neglects a social work practice which explores critical perspective (Morley, 2003). Critical social work helps people to understand the dominant ideology discourse and relocate subjectively in to that discourse.

Anti-Oppressive Social Work Practice in Mental Health

Social work is often seen as a helping profession assisting those most marginalized to meet basic human needs. The Canadian Association of Social Workers (2008) notes " The primary focus of social work practice is on the relationships between individuals, their natural support resources, the formal structures in their communities, and the societal norms and expectations that shape these relationships. "
