Trade And Environment Agenda Survey

It focuses on the World Trade Organization's Committee on Trade and Environment (CTE) first term (1994-96). It is divided into two parts. The main part examines each item on the CTE's mandate by providing a background to the issue and a survey of the various proposals made both within the CTE and beyond.

The "The Trade & Environment" Agenda: Survey of Major ...

The link between trade and environmental protection — both the impact of environmental policies on trade, and the impact of trade on the environment — was recognized as early as 1970. Towards the end of the Uruguay Round (1986–1994), attention was once again drawn to trade-related environmental issues, and the role of the soon-to-be-created World Trade Organization.

## WTO | Trade and environment

The Committee on Trade and Environment ('regular' CTE) The 1994 Ministerial Decision on Trade and Environment created the WTO's Committee on Trade and Environment (CTE), which is open to the entire WTO membership, with some international organizations as observers. The committee's mandate is broad, and it has contributed to identifying and understanding the relationship between trade and the environment in order to promote sustainable development.

1. Introduction. In response to increasing concern about the long-term sustainability of human societies, the United Nations developed the Sustainable Development Goals (SDGs), a 2030 agenda including 17 goals and 169 targets (United Nations, 2016). Despite criticisms of the framework (Kopnina, 2015), these goals currently dominate the sustainability and policy discussions surrounding development.
